*Due to the ongoing COVID-19 pandemic, ITS Washington is sensitive to the financial strain that some companies and organizations continue to face. As such, the Board of Directors has decided that membership dues for 2021 will allow the option to "pay what you can". While we rely on membership funds to execute our organizational mission, we want to recognize that not everyone will be able to pay their full dues this year and wish to communicate that we appreciate your continued membership and any amount that you can pay.*
